

## ROCK THE PLANET

Welcome world, now we're on start  
Coming like a thunder, to take your hearts  
We play our music, to kick some asses  
Rock'n'roll for your soul

Stagefright , all night  
We won't let you go  
Feel the fire  
Are you ready for the show

We're gonna  
Rock the planet (rock the planet)  
Rock around the world  
Rock the planet (rock the planet)  
Electric overdose  
Rock the planet (rock the planet)  
Hear the screaming guitars  
Rock the planet (rock the planet)  
Rock around the world

Stand up and shout it out  
We gotta go out to play it loud  
Feel the fever, feel the licks  
So you get some high voltage kicks

Push you to the limit  
We count on you  
Feel the fire  
We will never stop

### Chorus
