

ROSES FROM THE HEART

I was often down on the ground
Until your love I found
You heal my wounded soul
And take me out of the hole
You light my candle, never blow out
On your deep love, I have no doubt
You stand by me, ever patiently
I thank you for the time with me

2x

Roses from the heart
And nothing can tear us apart
Love greetings on a big red card
Roses from the heart

Many stories we wrote together
I hope we'll be friends forever
I think it's no illusion
We work on the solution
I count every minute, when I'm by your side
Love's like a fire, burning deep inside
You change my life, you're my destiny
I hope our love will be a symphony

2x

Roses from the heart
And nothing can tear us apart
Love greetings on a big red card
Roses from the heart

4x

From the heart

Ooh really baby, I swear to god
You're the one who satisfies my soul
You're the one who can change my life

2x Chorus

4x

From the heart

Ooh really baby, I swear to god
Deep inside I believe in you
I will send you
Roses from the, roses from the heart
