

SEX BOMB LOVE MACHINE

I'm feeling like a stray dog
You gave me a love shock
You kill me, you thrill me
You're body is a mystery
The hottest move I ever did see
You take me , you brake me

Don't run, don't hide through the night
You want it, you need it
Here - (here) I am (I am) I'm waiting for your love

You're so hot, You're so cool
You're my sex bomb love machine
You're so wild, I'm your fool
You're my sex bomb love machine

Surrender to my love babe
I give you all you want
Passion and fire, lust and desire
I take you to a higher ground
Forget all the things around
Pleasure and pain, do you feel the same
