

WHERE ARE THE ANGELS?

I live my life from day to day
Is this the price I have to pay (have to pay)
No friends out there, who can understand
I need someone, take me by the hand (by the hand)

I'm only thinking black or white
Everyday it's a long hard fight (long hard fight)
My wounds are healing not so fast
Every step is another test (another test)

No light in the dark
Waiting for a little spark (spark in the dark)
I can't find no way out
So I stand up and shout

Where are the angels? where are the angels
Who's gonna save my life - save my life
Where are the angels? - Show me the light
Where are the angels? where are the angels
Who's gonna save my life - save my life
Where are the angels? - Make me feel alright

I can't see no miracles
I don't know what to do (what to do)
Too many walls around me
Too much pressure over me (over me)

No light in the dark
Waiting for a little spark (spark in the dark)
I can't find no way out
So I stand up and shout

Chorus

(aha)
Where are the good guys? Unknown heros
(aha)
Lost in frustration
Tell me why

Solo

2x Chorus
